

III International Conference on Architecture and Building Technologies
Ischia, June 15 - 16, 2007

REGIONAL ARCHITECTURE IN EURO-MEDITERRANEAN AREA

CALL FOR PAPER

Promoted by AVOE, CIVICARCH, CEU, INTBAU, CITTAM, ARTEC

Aim and Topics

The conference should emphasize the ecological character of traditional cities in the Mediterranean area. This character is generated by a sustainable urban design in accord to the natural and social environment and by a proper use of material and building technologies. The architecture of traditional cities is generated by the heritage. Thus any building interventions need to be carefully considered in relation to the environment and the historical context.

Papers should represent high-quality and unpublished work, not under reviewing by any other scientific committee or journal.

Topics of interest include, but are not limited to, the following:

- URBAN AND TOWN PLANNING
- URBAN AND ARCHITECTURAL DESIGN FOR SUSTAINABILITY
- RESTORATION AND REDEVELOPMENT
- MATERIALS AND BUILDING TECHNOLOGIES
- SOCIO-CULTURAL ASPECTS OF HOUSING PROJECTS
- ECONOMICS AND FINANCING POLICIES
- MANAGEMENT SCHEMES AND MAINTENANCE
- CASE-STUDIES FROM MEDITERRANEAN CITIES
